SAFETY DATA SHEET
(according to (EC) 1907/2006)

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Copolymer 186

Synonyms:

None

1.2. Relevant identified uses of the substance or mixture and uses advised against

Resin intermediate

1.3. Details of the supplier of the safety data sheet

Manufacturer Information:
Vertellus LLC
201 North Illinois Street, Suite 1800,
Indianapolis, IN  46204

Non-Emergency Phone Number: 336-292-1781
Non-Emergency Fax Number: 336-854-4058
E-Mail Address: msds@vertellus.com

1.4. Emergency telephone number

Vertellus: 336-292-1781
CHEMTREC (USA): (800) 424-9300
(collect calls accepted);
(Int'l): (703) 527-3887
(collect calls accepted; 011 prefix not needed)

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

(According to Regulation (EC) No 1272/2008)
Not classified as hazardous under this directive.

Signal Word:
Not required.

Hazard Precautions:
Not classified as hazardous under this directive.

2.2. Label elements

Prevention Precautions:
SAFETY DATA SHEET

Note: These precautionary statements are not prescribed by directive 1272/2008 as this product is not classified as hazardous under this directive. Wash hands thoroughly after handling with soap and water. Wear protective gloves, protective clothing, eye protection and face protection. If swallowed, in eyes, on skin or inhaled call a poison center or doctor/physician if you feel unwell. If inhaled, remove victim to fresh air and keep at rest in a comfortable position for breathing. Take off contaminated clothing before reuse. Store in a well-ventilated place. Keep container tightly closed.

First Aid Precautions:
Not required.

Storage Precautions:
Not required.

Disposal Precautions:
Not required.

Single Exposure Target Organs:
Not applicable

Repeated Exposure Target Organs:
Not applicable

(According to Directive 67/548/EEC)
Symbol: Not classified as hazardous under this directive.
Risk Phrases: Not classified as hazardous under this directive.
Safety Phrases: Not classified as hazardous under this directive.

2.3. Other hazards

Signs and Symptoms of Potential Overexposure:
O3EM_OVR1500 Presents little or no immediate significant hazard if spilled or involved in a fire.
Single exposure to vapors or mist is not likely to be hazardous. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Contact may cause eye irritation and transient corneal damage. Not likely to be toxic by ingestion. Single dose oral toxicity is low.

Primary Route(s) of Exposure:
Skin contact and absorption, eye contact, ingestion, inhalation.

Medical Conditions Aggravated by Exposure:
No data found

SECTION 3: Composition/information on ingredients

3.1. Substances or 3.2. Mixtures

NOTE: See Section 8 of this MSDS for exposure limit data for these ingredients.
See Section 15 of this MSDS for trade secret information (where applicable).
See Section 16 of this MSDS for the full text of the R-phrases above.
## SAFETY DATA SHEET

### SECTION 4: First aid measures

#### 4.1. Description of first aid measures
- **Skin Contact:** Wash thoroughly after skin contact. Wash with soap and water. Get medical attention if irritation develops or persists.
- **Eye Contact:** Immediately flush the eyes with plenty of water for at least 15 minutes. Call a physician. Rinse eyes immediately with large amounts of water for at least 15 minutes, occasionally lifting the eyelids. GET MEDICAL ATTENTION.
- **Inhalation:** Remove from exposure. If not breathing, give artificial respiration and call a physician. No specific treatment is necessary since this material is not likely to be hazardous by inhalation. If exposed to excessive levels remove to fresh air and get medical attention if cough or other symptoms develop.
- **Ingestion:** If swallowed, do not induce vomiting. Get prompt medical attention.

#### 4.2. Most important symptoms and effects, both acute and delayed

**Acute:** O3EM_OVR1500 Presents little or no immediate significant hazard if spilled or involved in a fire. Single exposure to vapors or mist is not likely to be hazardous. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Contact may cause eye irritation and transient corneal damage. Not likely to be toxic by ingestion. Single dose oral toxicity is low.

**Delayed Effects:** None known.

#### 4.3. Indication of any immediate medical attention and special treatment needed
- **Thermal Exposure:** Not applicable.
- **Note to Physician:** No additional first aid information available.

### SECTION 5: Firefighting measures

#### 5.1. Extinguishing media
- **Appropriate Extinguishing Media:** Carbon dioxide Dry chemical Alcohol foam Water spray

#### 5.2. Special hazards arising from the substance or mixture
- **Hazardous Products of Combustion:** None Known
- **Potential for Dust Explosion:** Not known to be sensitive to mechanical impact or static discharges.
- **Special Flammability Hazards:** As in any fire, wear pressure-demand self-contained breathing apparatus (MSHA/NIOSH approved or equivalent) and full protective gear. Material may burn, but does not ignite readily. Avoid high temperature.

#### 5.3. Advice for firefighters
- **Basic Fire Fighting Guidance:** Evacuate area and fight fire from a safe distance.
- **Flammability Classification (OSHA):** Not applicable.
SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures
Evacuation Procedures: Isolate the hazard area and deny entry to unnecessary and unprotected personnel.
Special Instructions: Remove all contaminated clothing to prevent further absorption. Decontaminate affected personnel using the first aid procedures in Section 4. Leather shoes that have been saturated must be discarded.

6.2. Environmental precautions
Prevent releases to soils, drains, sewers, and waterways.

6.3. Methods and material for containment and cleaning up
Containment Techniques and Clean-up Procedures: Isolate hazard area. Keep unnecessary and unprotected personnel from entering. Remove all ignition sources. Ventilate the area of spill or leak. Wear protective equipment during clean-up. For small spills, use suitable absorbent material and collect for later disposal. For large spills, the area may require diking to contain the spill. Material can then be collected (eg., suction) for later disposal. After collection of material, flush area with water. Dispose of the material in accordance with standard practice for disposal of potentially hazardous materials as required by applicable federal, state or local laws. LARGE SPILLS: Shut off leak if safe to do so.

Special Reporting Requirements: Not applicable.

6.4. Reference to other sections
Refer to section 8 for information on selecting personal protective equipment. Refer to section 13 for information on spilled product, absorbent and clean up material disposal instructions.

SECTION 7: Handling and storage

7.1. Precautions for safe handling
Precautions for Unique Hazards: Not applicable.
Practices to Minimize Risk: Wear appropriate protective equipment when performing maintenance on contaminated equipment. Wash hands thoroughly before eating or smoking after handling this material.
Special Handling Equipment: Not applicable.

7.2. Conditions for safe storage, including any incompatibilities
Storage Precautions & Recommendations: This product should be stored at ambient temperature in a dry, well-ventilated location. Keep container closed when not in use.
Dangerous Incompatibility Reactions: Can react vigorously with oxidizing materials.
SAFETY DATA SHEET

Incompatibilities with Materials of Construction:

none known

7.3. Specific end use(s)

If a chemical safety assessment has been completed an exposure scenario is attached as an annex to this Safety Data Sheet. Refer to this annex for the specific exposure scenario control parameters for uses identified in subsection 1.2.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Exposure Limits (United States): OSHA PEL: Not established ACGIH TLV: Not established

8.2. Exposure controls

Also see the annex to this SDS (if applicable) for specific exposure scenario controls.

Personal Protective Equipment: A NIOSH/MSHA approved air purifying respirator with an organic vapor cartridge or canister may be permissible under certain circumstances where airborne concentrations are expected to exceed exposure limits. Protection provided by air purifying respirators is limited. Use a positive pressure air supplied respirator if there is any potential for an uncontrolled release, exposure levels are not known, or any other circumstances where air purifying respirators may not provide adequate protection. Use a positive pressure air supplied respirator if there is any potential for an uncontrolled release, the work atmosphere may be deficient of oxygen, or any other circumstances where air purifying respirators may not provide adequate protection, for example, when air purifying respirators have a short breakthrough time. Follow a respiratory protection program that meets 29 CFR 1910.134 and ANSI Z88.2 requirements whenever work place conditions warrant the use of a respirator. Safety glasses or chemical goggles. Wear safety glasses with side shields and a Face shield

Ventilation: All operations should be conducted in well-ventilated conditions. Local exhaust ventilation should be provided. Use process enclosures to control the level of dust in the air.

Other Engineering Controls: All appropriate engineering controls should be used to minimize exposure potential. Use exhaust ventilation to keep airborne concentrations below exposure limits.

Thermal Hazards: Not applicable.

Additive or Synergistic Effects: None known.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

SAFETY DATA SHEET

Solubility in Water: Insoluble
pH: Not available.
Viscosity: 250 Stokes @77°F
Flash Point and Method: 450°F (232°C) (PMCC (FEO and LCOR) TCC (Crude Nap Oil))
Octanol / Water Coefficient: Not available.
Odor Threshold: Not available.
Autoignition Temperature: Not available.
Flammable Limits: Not available. (LEL) – Not available. (UEL)

9.2. Other information
Not applicable.

SECTION 10: Stability and reactivity

10.1. Reactivity
Not classified as dangerously reactive.

10.2. Chemical stability
Yes

10.3. Possibility of hazardous reactions
Hazardous polymerization will not occur

10.4. Conditions to avoid
No data.

10.5. Incompatible materials
Can react vigorously with oxidizing materials.

10.6. Hazardous decomposition products
Products of incomplete combustion may include CO, CO2, NOx, and dense smoke.

SECTION 11: Toxicological information

11.1. Information on toxicological effects
Acute Oral LD50: Not available.
Acute Dermal LD50: Not available.
Acute Inhalation LC50: Not available.
Skin Irritation: No data available.
Skin Sensitization: No data available.
Eye Irritation: No data available.
Target Organs: No data available.
Carcinogenicity: No data available.
Teratogenicity: No data available.
Reproduction: No data available.
Neurotoxicity: No data available.
Mutagenicity: No data available.

SECTION 12: Ecological information
SAFETY DATA SHEET

12.1. Toxicity
Not available.

12.2. Persistence and degradability
No data. Not available.

12.3. Bioaccumulative potential
No data.

12.4. Mobility in soil
No data.

12.5. Results of PBT and vPvB assessment
Not available.

12.6. Other adverse effects
Not available. Not available.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

US EPA Waste Number: Not applicable

Waste Disposal: Dispose of this material in accordance with standard practice for disposal of potentially hazardous materials as required by applicable international, national, regional, state or local laws. Do NOT dump into any sewers, on the ground, or into any body of water. For disposal within the EC, the appropriate code according to the European Waste Catalogue (EWC) should be used. Note that disposal regulations may also apply to empty containers and equipment rinsates.

SECTION 14: Transport information

14.1. UN number
Not applicable

14.2. UN proper shipping name
Chemicals, n.o.s. (Copolymer 186)

14.3. Transport hazard class(es)
Not applicable

14.4. Packing group
Not applicable

14.5. Environmental hazards
Not applicable

14.6. Special precautions for user
Not available.

NA Emergency Guidebook Numbers: Not applicable

IMDG EMS: Not applicable

14.7. Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code
Not applicable.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture
OSHA Hazards: Irritant. Not applicable.

WHMIS Classification: This product is not classified as a controlled product under Canadian Controlled Products Regulations.
