SAFETY DATA SHEET

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

**PAP-220 Alkylpyridines Mixture**

**Synonyms:**
Poly Alkyl Pyridines; Pyridine, alkyl derivatives

**Chemical Abstracts Registry No.:**
68391-11-7

**REACH Registration Number:**
Not applicable.

1.2. Relevant identified uses of the substance or mixture and uses advised against

chemical intermediate

1.3. Details of the supplier of the safety data sheet

Vertellus Integrated Pyridines LLC
201 N. Illinois Street, Suite 1800
Indianapolis, Indiana 46204 USA
1-317-247-8141

e-mail Address: sds@vertellus.com

1.4. Emergency telephone number

**Vertellus:** 1-317-247-8141

**CHEMTREC (USA):** 1-800-424-9300 (collect calls accepted)

**CHEMTREC (International):** 1-703-527-3887 (collect calls accepted)

**NRCC (China):** +86 532 83889090

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

(According to Regulation (EC) No 1272/2008)

<table>
<thead>
<tr>
<th>Classification</th>
<th>(According to Directive 67/548/EEC)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Skin Corrosion/Irritation Category 1C</td>
<td>Symbol: Carc. Cat. 2, C, Xn</td>
</tr>
<tr>
<td>Serious Eye Damage/Eye Irritation Category 1</td>
<td>Risk Phrases: R22: Harmful if swallowed.</td>
</tr>
<tr>
<td>Carcinogenicity Category 1B</td>
<td>R45: May cause cancer.</td>

2.2. Label elements

**Hazard Symbols (Pictogram):**

Signal Word: Danger

*Indicates a trademark owned by Vertellus Specialties Inc., registered in the United States and elsewhere*
SAFETY DATA SHEET

Hazard Precautions: 
H302 - Harmful if swallowed.
H314 - Causes severe skin burns and eye damage.
H350 - May cause cancer.

Prevention Precautionary Statements: 
P201 - Obtain special instructions before use.
P270 - Do not eat, drink or smoke when using this product.
P280 - Wear protective gloves/protective clothing/eye protection/face protection.
P281 - Use personal protective equipment as required.

First Aid Precautionary Statements: 
P301+P330+P331 - IF SWALLOWED: rinse mouth. Do NOT induce vomiting.
P303+P361+P353 - IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower.
P305+P351+P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P308+P313 - IF exposed or concerned: Get medical advice/attention.
P310 - Immediately call a POISON CENTER or doctor/physician.
P363 - Wash contaminated clothing before reuse.

2.3. Other hazards 
Other Hazards: Not applicable.

Mixture Statement: 5-10% of this mixture consists of ingredient(s) of unknown acute toxicity.

</tr>
</tbody>
</table>

NOTE: See Section 8 for exposure limit data for these ingredients. See Section 15 for trade secret information (where applicable). See Section 16 for the full text of the R-phrases above.

SECTION 4: First aid measures

4.1. Description of first aid measures

Skin Contact: Wash exposed area twice with soap and water. The exposed area should be examined by medical personnel if irritation or pain persists after the area has been washed.

Eye Contact: Rinse eyes immediately with large amounts of water for at least 15 minutes, occasionally lifting the eyelids. GET MEDICAL ATTENTION.

*Indicates a trademark owned by Vertellus Specialties Inc., registered in the United States and elsewhere
Inhalation: Remove from exposure area to fresh air immediately. If breathing has stopped, give artificial respiration. Keep affected person warm and at rest. GET MEDICAL ATTENTION.

Ingestion: Do NOT induce vomiting, this material is corrosive. Give oxygen if respiration is shallow. GET MEDICAL ATTENTION. Do not give anything by mouth to an unconscious person.

4.2 Most important symptoms and effects, both acute and delayed

Acute: Alkylpyridine derivatives are generally corrosive or strongly irritating to skin, eyes and mucous membranes. Vapors may be irritating to the respiratory tract. These materials may be readily absorbed through the skin and exhibit varying degrees of toxicity depending on their chemical structures. Extended exposure (e.g., from saturated clothing) may lead to severe skin irritation and/or systemic poisoning. Symptoms may include headache, dizziness, nausea, nervousness, weakness, narcosis, sleeplessness, loss of appetite and possibly loss of consciousness. Symptoms seen after ingestion or inhalation overexposures are expected to be essentially the same as those listed previously. Ingestion is not likely to be a primary route of exposure.

Delayed Effects: Due to the corrosive nature of this material, burns are likely to occur. Ongoing contact with contaminated clothing may cause burns to appear after an extended exposure period.

4.3. Indication of any immediate medical attention and special treatment needed

Note to Physician: No specific indications. Treatment should be based on the judgment of the physician in response to the reactions of the patient.

SECTION 5: Firefighting measures

5.1. Extinguishing media

Appropriate Extinguishing Media: Water fog, foam, carbon dioxide, dry chemical

5.2. Special hazards arising from the substance or mixture

Hazardous Products of Combustion: Toxic fumes may be released upon thermal decomposition (cyanides, nitrogen oxides, carbon monoxide).

Potential for Dust Explosion: Not applicable.

Special Flammability Hazards: Severe explosion hazard in the form of vapor (within flammability limits) when exposed to heat, flame or static discharge. Alkylpyridines liquid conductivity testing (BS 5958, ASTM D2624) results indicate a result of 12,000,000 pS/m. A liquid whose conductivity is greater than 10,000 pS/m is generally considered to be conductive.

5.3. Advice for firefighters

Basic Fire Fighting Guidance: Wear self-contained breathing apparatus and full protective clothing (i.e., Bunker gear). Skin and eye contact should be avoided. Normal fire fighting procedures may be used.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Evacuation Procedures: Isolate the hazard area and deny entry to unnecessary and unprotected personnel.

Special Instructions: See Section 8 for personal protective equipment recommendations. Remove all contaminated clothing to prevent further absorption. Decontaminate affected personnel using the first aid procedures in Section 4. Leather shoes that have been saturated must be discarded.
**SAFETY DATA SHEET**

6.2. **Environmental precautions**

Prevent releases to soils, drains, sewers and waterways.

6.3. **Methods and material for containment and cleaning up**

Remove all ignition sources. Ventilate the area of spill or leak. Wear protective equipment during clean-up. For small spills, use suitable absorbent material and collect for later disposal. For large spills, the area may require diking to contain the spill. Material can then be collected (e.g., suction) for later disposal. After collection of material, flush area with water. Dispose of the material in accordance with standard practice for disposal of potentially hazardous materials as required by applicable federal, state or local laws.

6.4. **Reference to other sections**

Refer to section 8 for information on selecting personal protective equipment. Refer to section 13 for information on spilled product, absorbent and clean up material disposal instructions.

---

**SECTION 7: Handling and storage**

7.1. **Precautions for safe handling**

**Precautions for Unique Hazards:** Not applicable.

**Practices to Minimize Risk:** Wear appropriate protective equipment when performing maintenance on contaminated equipment. Wash hands thoroughly before eating or smoking after handling this material. Do not eat, drink or smoke in work areas. Prevent contact with incompatible materials. Avoid spills and keep away from drains. Handle in a manner to prevent generation of aerosols, vapors or dust clouds.

**Special Handling Equipment:** Not applicable.

7.2. **Conditions for safe storage, including any incompatibilities**

**Storage Precautions & Recommendations:** Maintain dry, ventilated conditions for storage. Protect containers against physical damage. Outside or detached storage is preferable. Inside storage should be in standard flammable liquids storage room or cabinet. Keep away from strong acids and oxidizing agents. Should be periodically inspected.

**Dangerous Incompatibility Reactions:** Avoid contact with strong acids and oxidizing agents.

**Incompatibilities with Materials of Construction:** May cause some forms of plastics and rubbers to deteriorate.

7.3. **Specific end use(s)**

If a chemical safety assessment has been completed an exposure scenario is attached as an annex to this Safety Data Sheet. Refer to this annex for the specific exposure scenario control parameters for uses identified in subsection 1.2.

---

**SECTION 8: Exposure controls/personal protection**

8.1. **Control parameters**

<table>
<thead>
<tr>
<th>Country</th>
<th>Occupational Exposure Limit</th>
</tr>
</thead>
<tbody>
<tr>
<td>Latvia</td>
<td>0.1 mg/m³ as 8-hour time-weighted average (Quinoline)</td>
</tr>
</tbody>
</table>

**Air Monitoring Method:** No data available.

*Indicates a trademark owned by Vertellus Specialties Inc., registered in the United States and elsewhere*
**8.2. Exposure controls**

Also see the annex to this SDS (if applicable) for specific exposure scenario controls.

- **Other Engineering Controls:** All operations should be conducted in well-ventilated conditions. Local exhaust ventilation should be provided.
- **Personal Protective Equipment:** Use NIOSH approved chemical cartridge-respirator or supplied air breathing equipment. Chemical goggles should be worn at all times; use face shields as conditions warrant. Impervious clothing and boots. Neoprene or PVC-coated gloves.
- **Thermal Hazards:** Not applicable.
- **Environmental Exposure Controls:** The level of protection and types of controls necessary will vary depending upon potential exposure conditions. Select controls based on a risk assessment of local circumstances. If user operations generate dust, fumes, gas, vapor or mist, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits.

---

### SECTION 9: Physical and chemical properties

**9.2. Other information**

Not applicable.

---

### SECTION 10: Stability and reactivity

#### 10.1. Reactivity

Not classified as dangerously reactive.
10.2. Chemical stability
Stable

10.3. Possibility of hazardous reactions
Will not occur.

10.4. Conditions to avoid
Avoid static discharge and uncontrolled exposure to high temperatures.

10.5. Incompatible materials
Avoid contact with strong acids and oxidizing agents.

10.6. Hazardous decomposition products
Have not been determined.

SECTION 11: Toxicological information

11.1. Information on toxicological effects

Acute Oral LD₅₀:
LD₅₀ (rat) = 737 mg/kg PAP-220 Alkylpyridines

Acute Dermal LD₅₀:
LD₅₀ (rabbit) > 1940 mg/kg PAP-220 Alkylpyridines

Acute Inhalation LC₅₀:
No data available.

Skin Irritation:
Corrosive to skin.

Eye Irritation:
Corrosive to eyes.

Skin Sensitization:
No data available.

Mutagenicity:
No data available.

Reproductive / Developmental Toxicity:
No data available.

Carcinogenicity:
Contains trace amounts of quinoline as an impurity, which has been classified by the European Union as a Category 1B carcinogen.

Target Organs:
Prolonged or repeated overexposure may lead to liver, kidney or central nervous system effects.

Primary Route(s) of Exposure:
Skin contact and absorption, eye contact, and inhalation. Ingestion is not likely to be a primary route of exposure.

Most important symptoms and effects, both acute and delayed:
Alkylpyridine derivatives are generally corrosive or strongly irritating to skin, eyes and mucous membranes. Vapors may be irritating to the respiratory tract. These materials may be readily absorbed through the skin and exhibit varying degrees of toxicity depending on their chemical structures. Extended exposure (e.g., from saturated clothing) may lead to severe skin irritation and/or systemic poisoning. Symptoms may include headache, dizziness, nausea, nervousness, weakness, narcosis, sleeplessness, loss of appetite and possibly loss of consciousness. Symptoms seen after ingestion or inhalation overexposures are expected to be essentially the same as those listed previously. Ingestion is not likely to be a primary route of exposure. Delayed Effects: Due to the corrosive nature of this material, burns are likely to occur. Ongoing contact with contaminated clothing may cause burns to appear after an extended exposure period.

Additive or Synergistic effects:
None known.

SECTION 12: Ecological information

12.1. Toxicity
No data available.
12.2. Persistence and degradability  
No data available

12.3. Bioaccumulative potential  
No data available

12.4. Mobility in soil  
No data available

12.5. Results of PBT and vPvB assessment  
No data available.

12.6. Other adverse effects  
No data available.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

US EPA Waste Number: Non-Hazardous

Waste Classification: (per US regulations)  
The waste may be classified as "special" or hazardous per State regulations.

Waste Disposal:

NOTE: Generator is responsible for proper waste characterization. State hazardous waste regulations may differ substantially from federal regulations. Dispose of this material responsibly, and in accordance with standard practice for disposal of potentially hazardous materials as required by applicable international, national, regional, state or local laws, and environmental protection duty of care principles. Do NOT dump into any sewers, on the ground, or into any body of water. For disposal within the EC, the appropriate classification code according to the European Community List of Wastes should be used. Note that disposal regulations may also apply to empty containers and equipment rinsates.

SECTION 14: Transport information

The following information applies to all shipping modes (DOT/IATA/ICAO/IMDG/ADR/RID/ADN), unless otherwise indicated:

14.1. UN number  
UN3267

14.2. UN proper shipping name  
Corrosive liquid, basic, organic, n.o.s. (Poly Alkyl Pyridines)

14.3. Transport hazard class(es)  
8

14.4. Packing group  
PG II

14.5. Environmental hazards  
Not applicable

14.6. Special precautions for user  
No data available.

14.7. Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code  
Category Y

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

SAFETY DATA SHEET

WHMIS Classification:  
Class E: Corrosive Material.  
Class B, Division 3: Combustible Liquid.  
Class D, Division 1, Subdivision A: Very Toxic Material  
Class D, Division 2, Subdivision B: Toxic Material. 

SARA 313:  
All known components less than de minimis levels.

Reportable Quantities:  
May contain quinoline (RQ = 5000 lbs.) at levels up to 0.5%.

State Regulations:  
- This product contains chemicals known to the State of California to cause cancer (Quinoline).
- This product contains chemicals listed on the Massachusetts Substance List for Right-to-Know Law (Quinoline).
- This product contains chemicals listed on the Minnesota Hazardous Substances List (Quinoline).
- This product contains chemicals listed on the New Jersey Hazardous Substance List (Quinoline).
- This product contains chemicals listed on the Pennsylvania Department of Labor and Industry Hazardous Substance List (Quinoline).
- This product contains chemicals listed on the New York State List of Hazardous Substances (Quinoline).

Other Regulatory Listings:  
- Note J applies to pyridine, alkyl derivatives (or mixtures containing this substance) under directive (EC) 1272/2008, "The classification as a carcinogen or mutagen need not apply if it can be shown that the substance contains less than 0.1 % w/w benzene (EINECS No 200-753-7). This note applies only to certain complex coal- and oil derived substances in Part 3."

HMIS:  
3* HEALTH  
2 FLAMMABILITY  
0 REACTIVITY

NFPA:  
3 HEALTH  
2 FLAMMABILITY  
0 REACTIVITY

15.2. Chemical safety assessment
Not applicable.

SECTION 16: Other information

Full text of R phrases in Section 3:  
R45: May cause cancer.  
R68: Possible risk of irreversible effects.  
R51/53: Toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.  
R36/38: Irritating to eyes and skin.  
R21/22: Harmful in contact with skin and if swallowed.

Classification Method:  
On basis of test data

Legend of Abbreviations:  
ACGIH = American Conference on Governmental Industrial Hygienists.  
CAS = Chemical Abstracts Service.
